A. Kinney, W. W. Harris and James W. Pratt, has completed its work, covering the recommendations made,

The transportation question is referred to as follows in the report: We have also taken the liberty promoting by Territorial aid, cheap and adequate transportation of agricultural products and other freight, as the establishment and successful operation of such a transportation system will promote the sale of public lands and increase their value therefor. In other words, all men concede that roads should be opened to a tract about to be homesteaded, at public expense, and this should be done, if possible, before the land is put on the market. We simply recommend that the open road for the transportation of the products of the homesteader be extended from the homestead to the Pacific Coust, and that this highway, both on land and sea, be regu fated and controlled by the intervention and control of the Territorial

Stearns' Electric

ROACH PASTE RAT

Was the officially recognized exterminator in the San Francisco war on rats, when the Federal and City Authorities killed hundreds of thousands of rats. It is the only Rat and Roach exterminator mentioned by name in the published report of the Committee.

The Panama Canal Commission buy and use Stearns' Electric Paste to kill off rats and cockroaches or the Isthmus, as it never fails to do the work.

Every housekeeper, every storekeeper, every farmer, everybody who has rats, cockroaches, waterbugs, etc., on their premises

should use this best of all exterminators, the one The Only whose use by the Government proves its superiority and efficiency.

Look for the signature of J. J. Kearney on every package, and be sure that you get the genuine Stearns' Electric Paste, the standard rat and roach exterminator for the last thirty years, the only one sold under a guarantee of money back if it does not give satsifaction.
